

Environmental Policy

D & V Services Pty Ltd sees the proper management of any environmental impacts of the business as ranking equally with all other operational considerations. It is the aim of the company to minimise the risk of pollution and damage and to promote protection by adopting a planned and systematic approach to Environmental Management, and by providing the resources required for the successful implementation of this policy.

The company operates in a highly regulated industry and always aims to work within a spirit of co-operation with the Environmental Protection Authority (EPA) and the Department of Administrative and Information Services (DAIS). The company aims to set an industry standard of excellence in environmental protection.

To ensure this, D&V Services Pty Ltd will comply with all environmental legislation, regulations, and codes of practice, industry standards and management plans on a federal, state and local level to all its activities at 1 Cheviot Rd Salisbury South, External Job locations and temporary work sites.

To this end, the company has developed an Environmental Management System which has been planned and developed in conjunction with our other management functions, including the Occupational Health & Safety Management System and the Quality Management System of the company and assessed and registered by Total Quality Certification Services International Pty Ltd in accordance with the conditions of Trade Mark Licence Agreement number QCC 661.

***Australian Standard
AS/NZS ISO 14001:2004
Environmentally Certified
Licence No. AU661-EC***

The registration covers the provision of services related to asbestos removal, storage, transportation and disposal; PCB removal, storage, transportation and disposal. The registration also covers demolition and Co2 Cleaning.

The company also aims to continuously improve our performance in regards to the environment by encouraging all persons working for or on behalf of the organisation to be vigilant in monitoring the impact of their activities.

The company requires that all Sub Contractors also comply with the Environmental Policy.
