

Quality Policy

D & V Services Pty Ltd is an Australian Company that offers a range of services including Asbestos Removal, Demolition, PCB Removal and Co2 Cleaning.

The Company's intention is to provide our customers with only those services, which are of acceptable quality, cost effective and fit for purpose. Our services shall conform to relevant regulations and / or agreed specifications or contracts.

To ensure these aims are met, D & V Services Pty Ltd has established and will maintain an efficient Quality Management System, which has been planned and developed in conjunction with our other management functions, including the Occupational Health & Safety Management System and the Environmental Management System of the Company and assessed and registered by Total Quality Certification Services International Pty Ltd in accordance with the conditions of Trade Mark Licence Agreement Number QCC 661.

***Australian Standard
AS/NZS ISO 9001:2008
Quality Certified
(Exclusions 7.3 Design and Development)
Licence No. AU661-QC***

The registration covers the provision of services related to asbestos removal, storage, transportation and disposal; PCB removal, storage, transportation and disposal. The registration also covers demolition and Co2 Cleaning.

The procedures outlined in the Quality Management System documents describe how the system is designed to ensure that customer requirements and expectations are recognised and that consistent control of these requirements are established, implemented and maintained to ensure continual improvement objectives are met.

It is the specific aim of D & V Services Pty Ltd to provide a high degree of customer satisfaction and this policy is issued to clearly indicate the attitude of the Company with regard to quality. Continuous improvement of all processes and actions forms the cornerstone of our system. Such actions are essential for long-term success in maintaining our competitive position, reputation and employee satisfaction.

This Quality Policy is reviewed from time to time for continuing suitability and is communicated to all employees to ensure understanding.
